PROFILE

I am a final-year Software Engineering student with a strong interest in Crypto/Web3. Since 2022, I have actively researched the market, gained hands-on experience in tracking on-chain data, analyzing macroeconomic trends, and extracting valuable insights. Alongside my technical background, I have developed skills in writing, content optimization, and information synthesis. My long-term goal is to grow within the Web3 ecosystem, contributing to meaningful blockchain projects and leveraging my technical foundation to build impactful solutions in this space.

PROJECT

TH Corner - Blockchain Blog

Self-Initiated (Jun 2025 - Present)

- Built and maintained a personal blog focused on blockchain/Web3 topics, aiming to deliver insightful and accessible content for newcomers and enthusiasts.
- Blog: <https://th-corner-blog.vercel.app/>

Content Writer & Page Manager - Local Café Project

(Apr 2024 - Sep 2024)

- Wrote and edited social media content to build the café's online presence.
- Designed visual posts using Canva and developed brand storytelling ideas.
- Planned content calendars and created trend-based posts to boost engagement.
- Fanpage: <https://byvn.net/K33b>

Crypto Airdrop & Market Insight Discord Channel

(Mar 2025 - Present)

- Built and managed a Discord community sharing airdrop strategies, Web3 project insights, and crypto market perspectives.
- Created and edited educational content and on-chain research summaries for members.
- Conducted on-chain and macro analysis, translating complex data into beginner-friendly posts.
- Increased engagement through regular discussions and practical sharing sessions.
- Discord: <https://discord.gg/kQR33GkhN6>
